UNIVERSITY

2013 Publications & Research Grants

For the period of January 1 to December 31, 2013

LIFE.CHANGING

Introduction

Solution-oriented and real-world focused, Royal Roads University develops and supports applied research which combines the best of scholarship and practice, supports organizations and communities, and responds to new and emerging challenges in the workplace. We are guided by our strategic research themes of learning and innovation, thriving organizations, and sustainable communities, livelihoods and the environment.

Researchers at Royal Roads seek to address and respond to critical issues of our time. Engagement with stakeholders and communities is a defining feature. Social and environmental justice as well as responsiveness, guide the university's research, and its relevance is evident in the mobilization and transfer of knowledge beyond academia and into the public sphere.

This distinctive university profile allows our faculty to truly demonstrate learning and applied research. We are pleased to showcase our faculty and staff in the 2013 edition of the Staff Publications and Research Grants booklet.
