Funding and Award Opportunities

Call for Expressions of Interest: *Trudeau Foundation Fellowship Program*

Expressions of Interest deadline: September 26, 2025 at 12:00 pm (noon)

The Trudeau Foundation Fellowship supports academic excellence, societal engagement, and increased intellectual outreach. The award is a public recognition of the Fellows' outstanding academic achievements and a promise of future transformative contributions.

What to submit:

1. Please submit a **one-page** document (12-point Times New Roman font, 2 cm margins). **Documents over one page will not be accepted.** Please tell us how you, your work, and a proposed project would address the Trudeau Foundation Fellows Program objectives. Specifically, their website states that Fellows of the Foundation:
 - i. are senior academics in Canada who are leaders in their field. They are academics holding a full-time tenured appointment in a Canadian university at or near the rank of Full Professor with a national or international reputation;
 - ii. tackle important current issues in social sciences and humanities intersecting with one or more of [the four themes of the Foundation](#);

- iii. propose a research project that is innovative and socially significant, pushing research and thinking in new directions;
 - iv. have a demonstrated commitment to supporting graduate students;
 - v. have a proven record of academic excellence, as established by their prior success in obtaining research grants;
 - vi. are effective communicators willing to engage with a range of actors in society.
2. Please also submit your CV to demonstrate external funding received, student support, and a range of knowledge mobilization activities. Please state your position on your CV. There is no page limit on your CV.

Please submit your expression of interest to [Research Services](#) **no later than noon Friday September 26th. Late submissions will not be accepted.**

Selection Process

This is a highly competitive program - the Foundation only nominates up to four (4) Fellows per year. Royal Roads University can submit up to three nominations. An internal selection process may be required. Expressions of interest will be screened for eligibility according to the criteria above and may be sent to the Research Advisory Committee for adjudication. Nominees who are selected to submit, will play an important role in drafting documents required for the nomination.

For more information about the fellowship: [Visit the Trudeau Foundation website](#)

To submit an EOI, or for more information: [Contact Research Services](#)

*Call for expressions of interest: Artificial Intelligence Humanities Sandpits:
Canada, UK and US*

Expression of Interest deadline: October 30, 2025

Expressions of interest results announced and sandpit invitations issued – December 2025

Value: Up to \$200,000

Duration: 18 months

SSHRC and UK Research and Innovation's Arts and Humanities Research Council (AHRC) invite expressions of interest to participate in a humanities-led, interdisciplinary research "sandpit" (a facilitated, collaborative process through which new research teams and project ideas are developed and selected for funding) to put humanities insights and methodologies at the heart of artificial intelligence tech design.

Through a series of workshops, teams would develop project ideas for further funding. Up to four grants would ultimately be awarded. Travel and subsistence costs to attend an in-person workshop will be covered by the funders.

Who can apply

This funding opportunity will be open to researchers based in the UK, Canada, and the US, pending final funder approvals. As this is an interdisciplinary opportunity, we welcome researchers from outside the humanities to apply. As projects will require development of AI-related tools, we particularly encourage individuals with relevant technical expertise to apply. We welcome applicants from any career stage.

About the Sandpit

A sandpit is a facilitated workshop process through which new project teams and research propositions will be co-developed and funded. Participants apply as individuals, and applications are generated during the workshops, not in advance. We are looking for attendees without preconceived project ideas or teams.

The [Doing AI Differently White Paper](#) will be the primary reference document for this sandpit.

Thematic Focus

We are at a pivotal moment in AI design. Contemporary AI systems increasingly produce cultural outputs, such as text, images and multimedia that resemble human cultural artefacts in unprecedented ways. This represents AI's 'qualitative turn': a fundamental shift toward systems whose inputs and outputs are deeply embedded in human cultural contexts.

This transformation creates an urgent need for humanities and arts perspectives to shape AI's foundational design, training, and evaluation, not merely analyse its outputs. The interpretive technologies theme addresses this need by supporting research that integrates humanistic methodologies directly into AI system design.

For more information: [Visit the SSHRC AI Humanities Sandpit web page](#)
 [Visit the UK Research and Innovation web page](#)

Call for proposals: *SSHRC Connection Grants*

Application deadline: **November 1, 2025**

Value: Events: \$7,000 to \$25,000
 Outreach activities: \$7,000 to \$50,000

Duration: 1 year

Connection Grants support events and outreach activities geared toward short-term, targeted [knowledge mobilization](#) initiatives. These events and activities represent opportunities to exchange knowledge and to engage with participants on research issues of value to them. Events and outreach activities funded by a Connection Grant can often serve as a first step toward more comprehensive and longer-term projects. Connection Grants are expected to respond to the objectives of the [Research Partnerships program](#).

Connection Grants support workshops, colloquiums, conferences, forums, summer institutes, or other events or outreach activities that facilitate:

- disciplinary and/or interdisciplinary exchanges in the social sciences and humanities;
- scholarly exchanges between those working in the social sciences and humanities and those working in other research fields;
- intersectoral exchanges between academic researchers in the social sciences and humanities and researchers and practitioners from the public, private and/or not-for-profit sectors; and/or
- international research collaboration and scholarly exchanges with researchers, students and non-academic partners from other countries.

SSHRC welcomes applications involving [Indigenous research](#), as well as those involving [research-creation](#). To this regard, for Connection Grants support **events and outreach activities** related to research-creation and Indigenous research.

Research Data Management Capacity Building Initiative

Through this initiative, SSHRC is committed to funding at least 10 meritorious Connection Grant proposals per competition to help the social sciences and humanities research community develop and adopt research data management standards, tools and skills. Learn more about the [Research Data Management Capacity Building Initiative](#).

[Research data management](#) supports the effective and responsible conduct of research, and increases the ability to store, find and reuse research data. A strong culture of data management will serve Canadian research excellence and support the development of social sciences and humanities insights. It will also benefit Canadian researchers working in international partnerships and collaborations as funders around the globe implement and strengthen data management requirements.

Unless otherwise indicated, there is no separate application process for most initiatives and supplements. However, candidates must select this initiative on the first page of the application to indicate they wish to be considered for an initiative or a supplement. They also need to explain why they wish to be considered in their application form.

Future Challenge Areas

SSHRC invites all applicants to review [Imagining Canada's Future's](#) 16 future global challenges and to consider addressing one or more of these areas in their research proposal. This is not an evaluation criterion for merit review and does not offer additional or dedicated research funds for this funding opportunity.

Call for Proposals: SSHRC Partnership Development Grants

Proposal deadline: November 17, 2025

Value: \$75,000 to \$200,000

Duration: 1 to 3 years

Partnership Development Grants provide support over one to three years to teams/partnerships, led by a project director, to:

- develop research and/or related activities in the social sciences and humanities—these can include knowledge mobilization and the meaningful involvement of students and emerging scholars—by fostering new partnerships with existing and/or potential partners; or
- design and test new partnership approaches for research and/or related activities that can result in best practices or models—these can either be adapted by others or have the potential to be scaled up to a regional, national or international level.

These grants are expected to respond to the objectives of the [Research Partnerships program](#).

Partnership funding is intended for formal partnerships between postsecondary institutions and/or organizations of various types. For more information, see the definitions for [formal partnership](#) and [partner organization](#).

The quality of training, mentoring and employability plans for students and emerging scholars will be evaluated as an important part of the proposed initiative. [SSHRC's Guidelines for Effective Research Training](#) explain how students and emerging scholars can meaningfully participate in proposed initiatives.

The intellectual leadership and governance for the creation of a formal partnership can come from the research community and/or from partner organizations from the public, private and not-for-profit sectors. For more information related to Partnership Development Grants, see the [Eligibility](#) section.

SSHRC invites applicants and their partner organizations who wish to propose formal disciplinary, interdisciplinary, interinstitutional, international and/or cross-sector partnership arrangements to apply for support through this funding opportunity. Funds are available to support a variety of formal partnership development initiatives in all the disciplines and themes that meet [SSHRC's subject matter eligibility guidelines](#).

SSHRC's [Partnerships Tool-Kit](#) offers tools and resources to assist with the planning and implementation of your partnership.

Call for Proposals: Knowledge Synthesis Grants: The Arts Transformed

Proposal deadline: December 2, 2025

Value: Up to \$30,000

Duration: 1 year

This Knowledge Synthesis Grants competition is to mobilize, examine and synthesize social sciences and humanities research on The Arts Transformed. The resulting syntheses will identify roles the academic, public, private and not-for-profit sectors could play in promoting more inclusive and equitable societies, and could inform development of effective tools and technologies, robust policies and sustainable practices needed to support the path toward a diverse and inclusive future for all.

The Arts Transformed is one of the 16 global future challenges identified through SSHRC's [Imagining Canada's Future](#) initiative. These complex issues, identified in 2018 following an extensive foresight exercise, reflect key challenges Canada and the world are likely to face over the coming decades. All the challenges cross multiple sectors, jurisdictions and research disciplines, and require broad collaboration to address. This Knowledge Synthesis Grants funding opportunity is informed and shaped by cross-sectoral and diverse perspectives, including from subject matter experts, policy leaders and community leaders.

Knowledge Synthesis Grants

Knowledge Synthesis Grants are not intended to support original research. Rather, they are intended to support the synthesis of existing research knowledge and identify knowledge gaps. This call is particularly focused on the state of research produced over the past 10 years.

Knowledge Synthesis Grants support researchers in producing knowledge synthesis reports and evidence briefs that:

- support the use of evidence in decision making and the application of best practices; and
- assist in developing future research agendas.

Applicants must address the following three objectives in their proposals:

- Critical assessment of the state of knowledge; identify strengths and gaps
- Research data – assess quality and rigour of current work in the field; identify gaps in data available
- Knowledge mobilization

SSHRC welcomes applications involving [Indigenous research](#), as well as those involving [research-creation](#).

Webinar

SSHRC will be holding a webinar for this competition via MS Teams in fall 2025. **Registration is required for this webinar.** The webinar will include an overview of the funding opportunity and a question-and-answer period.

Date	Time	Language	Webinar connection information
October 2, 2025	11:00 am – noon Eastern 8:00 am – 9:00 am Pacific	Bilingual (simultaneous interpretation)	Registration and webinar link

Call for Proposals: SSHRC Partnership Engage Grants

Proposal deadline: December 15, 2025

Value: \$7,000 to \$25,000

Duration: 1 year

Partnership Engage Grants provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors. In addressing an organization-specific need, challenge and/or opportunity, these partnerships let non-academic organizations and postsecondary researchers access each other's unique knowledge, expertise and capabilities on topics of mutual interest.

Partnership Engage Grants are expected to respond to the objectives of the [Research Partnerships program](#). SSHRC welcomes applications involving [Indigenous research](#), as well as those involving [research-creation](#).

Types of partnerships

Following are some possible [formal partnership](#) approaches. Applicants are in no way limited to these approaches and are welcome to combine some of the features described below.

- **Cross-sector co-creation of knowledge and understanding:** Partnerships to foster innovative research, training and the co-creation of new knowledge on critical issues of intellectual, social, economic and cultural significance.
- **Partnered knowledge mobilization:** Partnerships designed to synthesize, apply and mobilize new and existing social sciences and humanities research knowledge in accessible ways to build institutional capacity and to increase the national and international impact and stature of Canadian research.

Only one Canadian or international organization from the public, private or not-for-profit sector can be involved as a partner organization. Postsecondary institutions and scholarly associations are not eligible as partner organizations. Organizations collaborating with postsecondary institutions can be considered eligible as long as they are a separate entity from the postsecondary institution. The partner organization must be at arm's length (independent) from the academic institution and the applicant.

Upcoming Events - Horizon Europe

The Canadian Horizon Europe Secretariat is pleased to share some upcoming events on Horizon Europe for your consideration.

October 3, 2025 [Science Diplomacy Symposium: EU-Canada Scientific Collaboration in Horizon](#) (Toronto)

- The Canadian Science Policy Centre, in collaboration with the European Union through its Delegation to Canada, will host a half-day event in Toronto. It will feature dynamic panel discussions on opportunities for EU-Canada research collaboration, youth engagement, and the evolving landscape of science diplomacy.

October 15, 2025 [European Research Council \(ERC\) Grants – Q&A and Testimonials](#) (Virtual)

- Euraxess North America is hosting a webinar on European Research Council grants with officials from the ERC and current grantees.

November 26-27, 2025 [Horizon Deep Tech Summit](#) (Madrid)

- The Horizon Deep Tech Summit 2025 is the leading international event in Deep Tech, set to take place in Madrid. The event will cover key topics such as quantum computing, artificial intelligence, space tech, energy and decarbonisation, mobility, food tech, med tech, biotech, cybersecurity, advanced materials, dual-use technologies, and defence tech. The event will host panel discussions, start up competitions and multiple networking opportunities with key players in the ecosystem.
