Funding and Award Opportunities

Call for applications: De Chastelain Scholarship Programme

Application deadline: **May 11, 2026**

Value: CAD \$3,000 as a contribution towards all transport costs associated with the visit — including international flights, airport transfers, local transport.

CAD \$2,250 per week of scholarship, as a contribution to address accommodation, meals, meetings, and other incidental expenses during the visit.

Duration: 3 to 6 weeks

The Ireland Canada University Foundation (ICUF) is very pleased to announce the creation of the De Chastelain Scholarship Programme, achieved with the support of the Irish and Canadian governments. The De Chastelain Scholarships are designed to strengthen research links and academic exchange between Canada and the island of Ireland. At their core, the scholarships explore how Canada and Ireland can learn from one another in the pursuit of peace and reconciliation — and how, together, we can contribute to sustaining peace in the wider world. This ambition honours General John de Chastelain, who played a pivotal role in negotiating and securing peace on the island of Ireland, and whose legacy inspires this programme.

The scholarships will enable researchers from Ireland to spend 3–6 weeks at a Canadian university, and Canadian researchers to spend the same period at a university on the island of Ireland.

Themes

We welcome proposals from all academic disciplines. Some projects may focus directly on the dynamics of conflict and reconciliation; others may address the wider conditions that enable societies to live in peace. Together, these form two broad but connected themes:

- Pathways to Peace – the processes of negotiation, mediation, reconciliation, and conflict resolution that build and secure peace.
- Grounds for Hope – the contexts and practices that help peace settle, grow, and become durable, including governance, law, economics, health, environment, culture, and identity.

Applicants are encouraged to be imaginative in connecting their discipline to these themes. For example, research might explore conflict mediation, the resilience of democratic institutions, environmental sustainability, health systems, cultural identity, or the perspectives of Indigenous peoples on land and community.

The programme recognises that Indigenous knowledge plays a central role in shaping peaceful and sustainable societies, and seeks to create space for these voices within the exchange between Ireland and Canada.

While the primary aim is to strengthen links between Canada and the island of Ireland, the research may also address challenges in other regions of the world, provided that the work involves genuine collaboration between Irish and Canadian academics and speaks to the wider goals of building and sustaining peace.

The programme welcomes scholars at different stages of their careers. Through one unified application process, awards are made to both Emerging Scholars (within seven years of their PhD, following common European research-funding practice) and Established Scholars, with all recipients holding the title De Chastelain Scholar. Applicants without a PhD are eligible where they demonstrate an established academic or research practice of equivalent standing. To support the next generation of academic leaders, a substantial proportion of scholarships each year—up to half—will be reserved for Emerging Scholars.

For more information: [Visit the ICUF De Chastelain Scholarship Programme web site.](#)

Call for proposals: SSHRC Connection Grants

Proposal deadline: May 1, August 4, and November 2, 2026

Value: Events: \$10,000 to \$25,000
Outreach activities: \$10,000 to \$50,000;

Duration: 1 year

Connection Grants are expected to respond to the objectives of the [Research Partnerships program](#).

These grants support events and outreach activities geared toward short-term, targeted [knowledge mobilization](#) initiatives. These events and activities represent opportunities to exchange knowledge and engage with participants on research issues they value. Events and outreach activities funded by a Connection Grant can often serve as a first step toward more comprehensive and longer-term projects.

Connection Grants support workshops, colloquiums, conferences, forums, summer institutes, documentaries or other events or outreach activities that facilitate:

- disciplinary and/or interdisciplinary exchanges in the social sciences and humanities;
- scholarly exchanges between those working in the social sciences and humanities and those working in other research fields;
- intersectoral exchanges between academic researchers in the social sciences and humanities and researchers and practitioners from the public, private and/or not-for-profit sectors; and/or
- international research collaboration and scholarly exchanges with researchers, students and non-academic partners from other countries.

SSHRC welcomes applications involving Indigenous research, as well as those involving research-creation. To this regard, Connection Grants support events and outreach activities related to research-creation and Indigenous research.

[Research Data Management Capacity Building Initiative](#)

Through this initiative, SSHRC is committed to funding up to 10 meritorious Connection Grant proposals per competition to help the social sciences and humanities research community develop, adopt and disseminate research data management standards, practices, tools and skills. Learn more about the [Research Data Management Capacity Building Initiative](#).

Unless otherwise indicated, there is no separate application process for most initiatives and supplements. However, candidates must select this initiative on the first page of the application to indicate they wish to be considered for an initiative or a supplement. They also need to explain why they wish to be considered in their application form. SSHRC staff will conduct an administrative review to evaluate the proposal's relevance to this initiative. Applications deemed ineligible for the Research Data Management Capacity Building Initiative will remain in the Connection Grants competition.

For more information: [Visit the SSHRC Connection Grants web page.](#)

Call for proposals: *Destination Horizons Grants 2026*

Proposal deadlines: **May 22, and September 22, 2026**

Value: Up to \$15,000

Duration: 1 year

Destination Horizon Grants support researchers affiliated with eligible Canadian postsecondary institutions to build capacity, foster existing partnerships, and further develop networks and/or consortia with European Union (EU) and other [associated countries](#)' researchers, with the ultimate goal of applying to [Horizon Europe](#)—Pillar II calls for proposals.

Horizon Europe is the EU's key funding program for research and innovation, with a budget of €95.5 billion. It offers significant opportunities to access new knowledge, partners, markets, customers and suppliers. In November 2023, the Government of Canada closed substantive negotiations with the European Commission to join Horizon Europe as an associated country under Pillar II: Global challenges and European industrial competitiveness. While Canadians could previously participate in all Horizon Europe calls that were open to international partners, they would have had to largely secure their own funding to participate in a given project. With associated country status, Canadians can now access funding directly from the EU.

Destination Horizon Grants proposals are expected to respond to the objectives of the [Research Partnerships program](#).

Destination Horizon Grants are not intended to support implementation of Horizon Europe projects. Instead, the grants support activities between researchers that facilitate:

- disciplinary and/or interdisciplinary exchanges;
- scholarly exchanges;
- intersectoral exchanges between academic researchers and practitioners from the public, private and/or not-for-profit sectors; and/or
- international research collaboration and scholarly exchanges between researchers affiliated with Canadian postsecondary institutions and researchers, students and non-academic partners from the EU and other associated countries.

Matching funds

SSHRC will not fund the full cost of any Destination Horizon Grant. Additional support in the form of eligible cash contributions equivalent to 100% of the amount requested from SSHRC must come from the host institution.

Applicants must demonstrate their ability to secure at least the minimum matching funding. Applicants must do so by including a letter of support from the host institution that clearly confirms the amounts and types of contributions the host is providing.

Applicants can draw on complementary funding from SSHRC research grants and/or from other research funding agencies, but must make clear in their budget proposal there is no duplication of financial support for the same budget expenses. While such funds can be used in this complementary way, these funds cannot be counted toward the requirement for matching funds.

Subject matter

Most SSHRC funding is awarded through open competitions. Proposals can involve any disciplines, thematic areas, approaches or subject areas eligible for SSHRC funding. See the guidelines on [subject matter eligibility](#) for more information.

Projects whose primary objective is to conduct research activities (e.g., literature reviews, field work, data collection, interviews, etc.) are not eligible for funding under this funding opportunity.

Applicants

Applications can be submitted by an individual researcher or a team of researchers (consisting of one applicant and one or more co-applicants and/or collaborators).

Applicants must be affiliated with a Canadian postsecondary institution that holds institutional eligibility at the time of application. Researchers who maintain an affiliation with a Canadian institution that holds institutional eligibility, but whose primary affiliation is with a non-Canadian postsecondary institution, are not eligible for applicant status.

Postdoctoral researchers and students are not eligible for applicant or co-applicant status for a Destination Horizon Grant.

Webinar

To learn more about the application process, applicants are invited to listen to the webinar recording from the previous competition. The recording is available in [English](#) and in [French](#).

For more information: [Visit the Destination Horizons Grants web page](#)

Call for proposals: Partnership Engage Grants

Proposal deadline: **June 15, September 15, and December 15, 2026**

Value: \$10,000 to \$50,000

Duration: 1 year

Partnership Engage Grants are expected to respond to the objectives of the [Research Partnerships program](#).

These grants provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors. In addressing an organization-specific need, challenge and/or opportunity, these partnerships let non-academic organizations and postsecondary researchers access each other's unique knowledge, expertise and capabilities on topics of mutual interest.

SSHRC welcomes applications involving [Indigenous research](#), as well as those involving [research-creation](#).

For tools and resources to assist in the planning and implementation of your partnership, see SSHRC's [Partnerships Tool-Kit](#).

Types of partnerships

Following are some possible formal partnership approaches. Applicants are in no way limited to these approaches and are welcome to combine some of the features described below.

- Cross-sector co-creation of knowledge and understanding: Partnerships to foster innovative research, training and the co-creation of new knowledge on critical issues of intellectual, social, economic and cultural significance.

- Partnered knowledge mobilization: Partnerships designed to synthesize, apply and mobilize new and existing social sciences and humanities research knowledge in accessible ways to build institutional capacity and to increase the national and international impact and stature of Canadian research.

Joint initiatives

SSHRC collaborates with organizations from across the not-for-profit, private and public sectors to support and promote training, research and connection activities in the social sciences and humanities. SSHRC's joint initiatives are designed to reflect its strategic objectives and mandate, inform decision-makers, and, in certain cases, address specific needs of its partners.

The following joint initiatives are associated with this funding opportunity:

- [Mitacs Accelerate—Grants](#)

Thinking of applying for any of these opportunities?

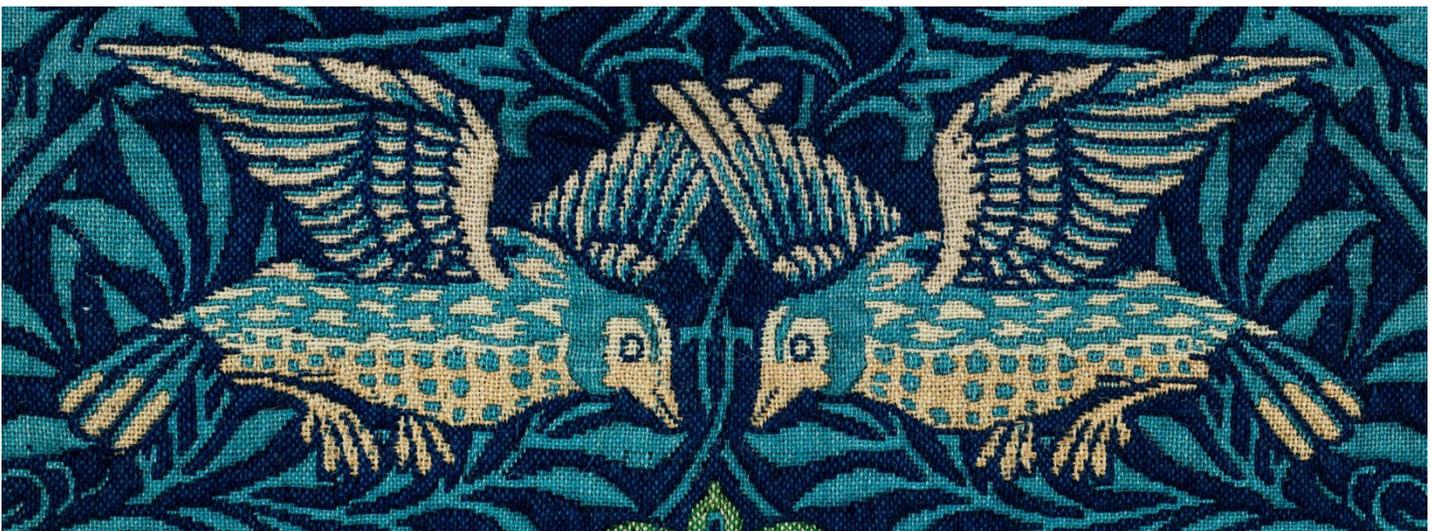

Please click [here](#) to fill out our Proposal Notice of Intent (NOI) form.

Please contact the [Office of Research Services](#) and we will assist you in the development of your proposal. Note that the principal investigator for any grant application submitted through Royal Roads University must be a core faculty member at RRU.

Questions about your author rights, publishing, or promoting your research?

Contact [Cassandra Larose](#), Scholarly Communications Librarian, at 250-391-2600, ext. 4324.

Questions about your data management plan? See the Library's [Research Data Management Guide](#) for more information, or [contact the library](#).

Spotlight

Equity, Diversity, and Inclusion in Research: Reflections on Solidarity and Complicity: A Conversation on Indigenous and South Asian Entanglements in Dismantling Settler Colonialism

Join Wilfred Laurier's EDI Speaker Series for its March installment in conversation to "think through the complex relationship between South Asian immigrant populations and Indigenous populations of Turtle Island" on **March 20th, 2026**, from **10:30 – Noon PT**.

This panel brings together Dr. Beverly Jacobs ((Kayen'kehaka (Mohawk nation) Bear Clan from Six Nations of the Grand River territory, Vice Provost Indigenous at McMaster University, and Associate Professor, Indigenous Studies at Wilfred Laurier) and Dr. Nishant Upadhyay (associate professor of ethnic studies at the University of Colorado Boulder) to discuss the complex relationship to dissent of the modern university, as well as how communities can build solidarity together to dismantle systems of oppression.

[Register here for this open session.](#)

Have your say: Updates to the Tri-Agency Responsible Conduct of Research framework

The Panel on Responsible Conduct of Research (PRCR) is seeking written feedback on proposed updates to the 3rd edition of the [Tri-Agency Framework: Responsible Conduct of Research – RCR Framework \(2021\)](#).

This update aligns with PRCR's mandate to review the RCR Framework every five years.

[Review the proposed changes here](#) and share your comments by **April 17, 2026**.

Horizon Europe 2025 Road Show

You are invited to the Horizon Europe Roadshow, taking place from March 9 to 13 2026.

This series of in-person events will bring together European and Canadian experts to explore funding and collaboration opportunities under Horizon Europe. Whether you are new to the programme or preparing for upcoming calls, whether you are a researcher or a business leader, this is an excellent opportunity to learn more and expand your network.

Participants will have the opportunity to:

- learn more about Horizon Europe funding opportunities
- hear directly from European and Canadian experts
- join strong consortia and multidisciplinary partnerships
- understand grant management in practice
- explore specific Horizon Europe missions and thematic priorities

- hear testimonials from researchers and organisations with first-hand experience

Roadshow stops

City	Date	Registration link
Québec City – <i>Université Laval</i>	March 9, 2026 (Monday)	Québec City registration
Winnipeg – University of Manitoba	March 11, 2026 (Wednesday)	Winnipeg registration
Waterloo – University of Waterloo	March 13, 2026 (Friday)	Waterloo registration
